PRINCE ALBERT, SASK.

THIRD SESSION

Of the First Legislative Assembly.

Promptly at 3 o'clock on Wednesday, 29th inst., His Honor the Lieut. Governor opened the third session of the First Assembly by reading the following ADDRESS.

Gentlemen of the Legislative Assembly,—

In opening the last Session of the present Legislature, I desire to congratulate you upon the abundant harvest, with which Providence has this year blessed the labors of our husbandmen.

The crop has been a large one throughout the entire Territories, while from the ranching districts most satisfactory reports are being received.

Much progress has undoubtedly been made since our last meeting, and there is I think just cause for a feeling of contentment and hope in our midst.

New railway communications are being rapidly established in the country.

The Qu'Appelle, Long Lake and Saskatchewan Railway is now in operation between Regina and Prince Albert, and I had the pleasure a few days ago of travelling over the road to be present at the celebration of the opening held in Prince Albert, when I had the honor of driving the last spike.

The line between Calgary and Edmonton is in course of construction, and will be built this year as far as the Red Deer River, a distance of about one hundred miles.

These two roads will open up a vast region of Country, which, for extent of fine arable land and wonderful natural resources, is equal, if not superior, to any district of the Territories.

We also have, as another feature of our progress, the extension of "The Alberta Railway and Coal Company's" line from the thriving Town of Lethbridge to Great Falls, in the United States.

The construction of that line will secure for the Galt Coal Mines an abundant market, and create for Southern Alberta a rapidly increasing demand for labor of all kinds.

We were honored last May by the passage through the Territories of their Royal Highnesses the Duke and Duchess of Connaught on their homeward trip from India.

The selection of this route, of which their Royal Highnesses were pleased to express their admiration, affords an additional proof that when the connecting link across the Pacific Ocean has been established by the new line of Steamships now in course of construction, our Canadian Pacific Railway is destined to become a leading highway of communication, that will enable Canada to develop new markets in the Mother Country, in Europe and the Orient.

The question of Immigration is one that must always occupy the constant attention of those responsible for the Government of any new Country. I am therefore pleased to state that during the recess my Territorial Advisers have devoted themselves to the task of bringing the natural advantages of our Country, and the unparalleled opportunities it affords the intending Immigrant, prominently before the European public.

Your co-operation will be sought in maturing and completing this important work.

The visit of the delegated farmers from England will no doubt also greatly assist in making the Territories known as a most desirable field for Immigration.

I purpose to cause statistics to be laid before you, which you may find of use in combating the assertion that your Country shows a large increase of Crime where formerly it was comparatively free from serious law-breaking.

The ravages perpetrated by Gophers, during preceding summers, had proved so disastrous, that one of the first measures adopted by my Advisory Council, at the commencement of the year, was to provide some means by which farmers would be enabled to cope successfully with the pest. A statement showing the means adopted, and the results that followed will be laid before you.

The formation of a Parliamentary Library, for the use of the Student and the Legislator, has been a want in our or-

ganization that I have long desired to see supplied, and in connection with which much has been required.

I have consequently commenced to lay the foundation of what I trust will prove as valuable and complete a Library, as time and our resources permit.

When the books, for which orders have been given, are received a nucleus will be formed of Standard works in every department of human knowledge which it will afterwards be easy to add to and complete.

A catalogue will then be printed and distributed.

I have the pleasure to state that, in response to the resolution adopted by the House last Session in reference to the granting of passes for Immigration Agents by the Canadian Pacific Railway Company, Mr. Van Horne, the President of the Company, most kindly consented to continue the issue of these passes, on the understanding that the applications should be limited, as far as possible, to persons engaged in farming in the Territories.

Forty eight passes to various parts of Eastern Canada were issued during the year, the selection of the Agent being in many instances made by the Agricultural Society of the District.

I trust that the mission of the several gentlemen who visited the East, will prove beneficial to the Country, and render much assistance to the cause which they had in hand.

In view of making the Ordinance respecting Prairie and Forest Fires more extensively known, I recently caused a number of notices to be printed drawing the attention of the public to the provisions of the Ordinance and the penalties prescribed for its violation.

These notices were circulated, as widely as possible, throughout the Territories, chiefly through the medium of the Northwest Mounted Police Force, and I trust the distribution may secure greater care being taken in the prevention of these disastrous fires.

Many members of the Force stationed at the various outposts throughout the Country have, at the request of the Commissioner, also been appointed Fire Guardians.

I cannot here too strongly express my acknowledgment of the services rendered by the Police Force generally in their zealous and active efforts to enforce the provisions of this Ordinance.

They are also entitled to my special thanks for the valuable assistance they afford in connection with the regulations governing the importation of Liquor into the Territories, and for their continued endeavors to suppress illegal traffic in Intoxicants.

I am pleased to be again able to state that our Schools are being conducted on the whole, in a very satisfactory manner. From the report of the Board of Education for the past year which will be laid before you, it will be found that, at the close of the Quarter, ended June last, we had 195 Schools in operation in the Territories, with 224 teachers and 5,398 pupils, showing an increase of 31 schools, 41 teachers and 824 pupils as compared with the corresponding Quarter of last year.

During the year, Union Schools were established in Lacombe, Moosomin, Moose Jaw and Prince Albert School Districts, in addition to those previously in existence at Regina and Calgary. Parents in these Districts are now afforded an opportunity of obtaining for their children a high class of education within easy reach of their homes.

Resolutions have been adopted by the Board of Education suggesting some amendments to the School Ordinance and the amendment of Ordinance No. 10 of 1889.

I have again availed myself of your individual assistance in carrying out the Country, as regards Public Works. The action taken by you on my behalf in this respect has been so complete and has conformed so closely to the regulations prescribed for the disbursement of this item of public funds, in every instance have I been able to sanction immediate payment of the accounts, when recommended for payment.

FRIDAY, OCT. 31, 1890.

Our Special Telegrams will be read with interest. That lively times are in order at Regina goes without saying. We now await the reasons which prompted the Assembly to disallow an Insurance Bill, and the remarks made in connection by our representative. It will certainly be strange to find an important Bill thrown out without good and sufficient reasons being given. The actions of Mr. Plaxton in voting against a position on committees being granted, Mr. Betts' strange in the face of his votes of last year. Has anything transpired to justify his sudden change of front, or has the difficulties of the public position dazed him. We can hardly realise that he has made the interests of his constituency subservient to personal feeling. Our next reports will no doubt contain an explanation of the whole circumstance. All will look forward to it with considerable interest.

MEMORY OF QUEENSTON.

Time spent in directing the attention of Canadian school children to the landmarks in their country's history is not wasted.

This is a practical country. Its greatness cannot feed on traditions. Canada must raise crops and rustle for money. The prosaic pursuits of agriculture and industrial art enthrall the old, while to the young the present is all preparation for the future. Our past lacks the charms of great antiquity, and as a barren field has been almost ignored.

Its crop of neglected glories has never been fully harvested. The conquests of Canadian valour and wisdom were almost cheated out of a deserved immortality. The memory of heroic resistance to foreign foes and domestic tyrants has slept too long, and the Toronto School Board is wisely encouraging the school children to rescue great events in the annals of their country from oblivion.

Giving one day to the memory of the victory at Queenston will set the children thinking. That fight in its own small way was eminent by

reason of the righteousness of the result. The heroic struggles of a native patriotism against alien force are never insignificant or unworthy of remembrance, and the record of triumphant valour must always be precious to true Canadians.

War is not glorified by the commemoration of a victory won for Canada by Canadians. Nor rightly understood can the celebration be a narrowing influence. Knowledge of and love for their own land will not blind the children to the merits of other countries.

Of course they believe that Canada is the makings of the greatest country on earth. Pindar in the present grows by contemplation of the past, and young Canadians will value their country more as they come to realize that valour kept it free and industry made it great.

An account of a case of spontaneous combustion, the reliability of which is fully vouched for, comes from the *Ohio Farmer*. About the last of the second week in July, a neighbor harvested six acres of wheat of very heavy growth. He had some timothy grass in the fall when seeding his wheat and more not spring, so that the wet season caused such a heavy growth that the heads of the wheat were full of it. Two or three days before harvest he had cut in two fields and put it over some new hay. Nothing was the matter was a little soft he delayed putting in any more for a couple of days, when he found in the barn, that the hay was on fire. Two days afterwards he was seen from the dwelling house in the evening, coming through the clouds in the end of the barn. When the clouds were over, the fire was seen to be in that portion of the wheat now which had not the heavy loads of wheat, but it quickly spread as soon as the heat of an unbroken and completely destroyed the barn and its contents.

Canada, last year, exported over \$30,000 worth of wheat, and it is to say anything of the quantity that may have been used in the manufacture of gun and powder, or in other ways, (it) were present, and then they influence us that some farmers are making a mistake through not knowing the value of ordinary wood ashes. In view of the current price and benefits that follow the use of wood ashes, it is not making an over-statement to say there is not a better fertilizer on the market to-day. They contain large quantities of potash, some time and a little phosphoric acid. If those making a habit of sowing their seeds, or worse of sowing them to go to waste, would apply them to their potatoes, beets, caulages, onions, clover, peas, or other such like crops, or use them in their orchards, they would have their eyes opened to the error of their former ways.

THE FAMILY HERALD AND WEEKLY STAR, Montreal, has its enormous circulation because it does not encroach upon the local country paper's work. People everywhere find they need the FAMILY HERALD AND WEEKLY STAR, Montreal, in addition to their own local weekly. THE FAMILY HERALD AND WEEKLY STAR has an enormous staff of high-salaried editors, and spends large sums in gathering general news of the world at large, besides employing money freely in addition to its literary miscellany.

(Continued from first page.)

As long as this is the case, the system, which was adopted last year regarding the appropriations for public improvements would appear to work most satisfactorily.

A slight relaxation of the rules has in a few cases been found necessary, where much benefit was likely to accrue to poorer settlers.

And has, as before, been granted to the Agricultural Societies, and to other organizations in some of the Districts, as a stimulus to progress and settlement.

The requests for grain and other seed this year have been few in number. All the applications were complied with, on the understanding that the advance would be repaid by road and other work.

The expenditure for Public Works during the last year has largely exceeded that of the preceding year, but the fact that a large proportion of the total appropriation for the year 1889-90 remained unexpended on the 30th Sept. last would tend to show that the money devoted to many of the Districts have been in excess of their individual wants.

A detailed report of the Public Works will be as usual, laid before you.

A report will also be submitted to you with reference to the water supply of certain sections of the Country and the well sinking operations, which have been carried on during the past year.

One hundred and fifty-four tests have been made for seventy-nine various settlers, and water has been reached in fifty-eight instances of varying depths.

While this result is not as satisfactory as might have been hoped for, owing to unfavorable conditions of strata and imperfection of machinery, we still have ground for congratulation in the fact that water is now known to be within reach of three-fourths of those for whom tests were made, and that for many the question of seeking fresh fields of labor has been practically disposed of.

A statement of the receipts and expenditure of the General Revenue Fund will be submitted to you with the Auditor's Report. I will also cause to be laid before you, on an early day, the Territorial Estimates for the year 1890-91, which will be prepared with the assistance of my Advisory Council, due regard being had to economy and the requirements of the Public Service.

In your consideration of the various measures, which may be submitted to you, I feel confident that you will be inspired by a sincere love of your Country, a deep attachment to its institutions, and an earnest desire to promote its welfare. May the Divine Providence direct and guide you in the discharge of your solemn and important duties.

Dr. Brett then moved thanks to His Honor for having presented it, and as once it became apparent the old issues of last session were to be fought out.

Mr. Haultain remarked that while the Advisory Council could control the finances of the country, his friends had decided that they should not be permitted to introduce any motions or Bills.

This is interesting. The thirteen men, through Haultain, are now willing to admit that the Council acted within the Constitution, but because they refused to violate it, they, as private members of the House, are to be denied a hearing, regardless of the good or bad such action might do the country.

MOTIONS

The following motions were dealt with by the Assembly to day:—

Mr. Justice Richardson—To ask leave to introduce the following Bill:—1. Bill to provide for Appeals from Convictions and Orders of Justices of the Peace made under Ordinances and Municipal By-laws. 2. Bill to Amend the Revised Ordinance respecting the Legal Profession. Granted.

Mr. Secord—To ask leave to introduce a Bill respecting the Contract of Life Assurance. Refused.

Mr. Tweed—To move that the House go into Committee of the Whole for the purpose of considering the advisability of a grant being made to the Medicine Hat General Hospital. Granted.

Mr. Davidson—To ask leave to introduce a Bill respecting the Hiring of Minors. Stands.

Mr. Tweed—To ask leave to introduce a Bill entitled: an Ordinance to amend the Ordinance respecting the Registration of Births, Marriages and Deaths. Stands.

Mr. Brett—To move the following resolution:—

That whereas, at the last sittings of

the House it was moved by Mr. Brett, seconded by Mr. Richardson, that the following members:—Messrs. Tweed, Gayley, Ross, Haultain, Thorburn, Reaman and the mover (which fully represented the composition of the House) be a Special Committee to nominate the Select Standing Committees of the House for the present session and list of members to compose the same respectively, and to report thereon. And whereas, an amendment was moved thereon, seconded by Mr. Clinkskill, which was subsequently carried, that all the words in question after the word "that" be struck out and the following substituted, Select Standing Committees of this House for the present session be appointed for the following purposes:—Civil Justice; Education; Standing Orders and Library; Immigration; Municipal; Agriculture; Public Accounts and Printing; when said several Committees shall severally be empowered to examine and enquire into all such matters and things referred to them and to report from time to time their operations and opinions thereon, with power to send for papers, persons and records.

And whereas, at the same sittings it was moved by Mr. Neff seconded by Mr. Sutherland, and carried, that a Special Committee, consisting of Messrs. Gayley, Ross, Plaxton, Sutherland, and Clinkskill, be appointed to prepare and report, with all convenient speed, lists of members to compose the Select Standing Committees ordered by this House. And whereas, in the composition of the Special Committee appointed to strike the Standing Committees as appointed, the following members, namely, Messrs. R. G. Brett, Member for Red Deer, J. F. Betts, Member for Prince Albert; B. P. Richardson, Member for Wolsley, and J. Secord, Member for South Regina, have been excluded and thereby deprived of a portion of their rights and privileges as members of this House in the transaction of the business of the country. Therefore I, Robert George Brett, member for Red Deer, on behalf of myself and the three other above named members, desire to record our solemn protest against such action as a violation of our constitutional privileges, and I move, seconded by Mr. Richardson, that in the opinion of this House such action is to be condemned. Out of order.

Mr. Brett gave notice for reintroduction at next meeting.

GENERAL NEWS.

Regina, Oct. 19.—Another outfit of the demi monde arrived here from the east this morning and it was their intention to take up quarters in the River house, which the other hard characters left on a twenty-four hours notice a few weeks ago. When morning dawned, however, only the ashes, of the shanty remained. It had been burned during the night. Possibly a committee of vigilantes is operating in our midst, so for the present the dusky damsels have taken their residence on South street.

Toronto, Oct. 18.—A special cable dispatch from London says: There is good authority for stating that Lord Salisbury is about to make fresh proposals to France respecting the Newfoundland question on the basis of free access by French fishermen to Newfoundland's bait supply in return for abrogation of French bounties. It is possible the repeal of the bait law will also form the basis of a mission to Washington.

CALGARY, Oct. 19.—J. J. Barter, manager of the Quorn ranch, died at the residence of his brother-in-law J. S. Gibb here on Saturday of typhoid fever. His funeral to-day was a very large one. He was 47 years of age and leaves a wife, daughter of Judge Travis, and a son. Mr. Barter was for many years with the Hudson's Bay Co. here.

HALIFAX, N.S., Oct. 19.—A dispatch from Little Grace Harbor announces the wreck of the government steamer Napoleon near that place. The steamer went ashore in a dense fog. Her crew succeeded in reaching the shore in safety by means of the vessel's boats.

SYDNEY, C. B., Oct. 19.—The Governor and his party arrived Saturday evening. His Lordship was presented with an address by the mayor on behalf of the citizens. The decorations and illustrations were exceptionally grand.

QUEBEC, Oct. 19.—While collecting donations during high mass this morning at St. Roche church a man named Leneau dropped dead from the rupture of a blood vessel.

LINDSAY, Oct. 19.—South Victoria Conservatives have nominated M. M. Boyd, of Bobcaygeon, to contest the coming election.

HALIFAX, Oct. 18.—Senator Archibald died suddenly at Sydney this afternoon, of heart failure.

NOVA, Oct. 18.—Samuel Slater, of Hamilton, manager of the Landed Loan Banking Company, was instantly killed at a hunting camp near here this morning. A man named McDonagh, of this place, was testing Slater's rifle when the bullet grazed a sapling, glanced and struck Slater in the forehead.

NEWARK, N. J., Oct. 18.—After ineffectual attempts at suicide, Nicholas Schubert, the wealthy real estate owner, this morning succeeded in killing himself by jumping from the second story window of the city hospital. Three weeks ago Schubert planted a bullet in his brain at his saloon, on Norfolk street, while a constable stood at his bedroom door with a warrant charging him with assault and battery.

ST. LOUIS, Oct. 19.—At 1 o'clock yesterday afternoon Albert Whitefield killed Grandison Jones, putting three bullets into his body. The shooting took place on board the steamer Baton Rouge. Charles Newton was shot through the neck by a stray bullet. Whitefield was arrested. All parties concerned in the affray are colored. The murder was the result of an old quarrel among the men.

CANNINGTON, Ont. Oct. 18.—Joseph Lillierop fell in front of a threshing machine he was driving and the wheels passed over his body, fatally injuring him.

BELLEVEILLE, Oct. 18.—Felix Duffin, aged 68, of Thurlow, fell from a loaded wagon and was instantly killed, the wheels passing over his head.

DENVER, Col., Oct. 19.—Capt. L. W. Cutler, editor and proprietor of the Field and Farm of this city, died suddenly at Salida, Col., yesterday. He was at one time associate editor with Horace Greeley on the New York Tribune and served in that capacity for several years.

CHICAGO, Oct. 18.—This morning Felix Young, a laborer, was instantly killed, James Turner, laborer, badly injured, and several others badly bruised by the fall of a derrick at a building now being constructed at Madison street and Michigan avenue.
